First Light Safety Products’ patent-pending Illuminated School Bus Sign makes the journey to and from school significantly safer for our kids.

Our illuminated technology gives the motorist more time to recognize and react to the school bus.
ILLUMINATED SCHOOL BUS SIGN

Exceeds National and State Regulations

- **VISIBILITY EXCEEDS 1000 FEET**
  Visible at all times of the day, and in dangerous weather conditions

- **READABILITY EXCEEDS 300 FEET**
  Readable at greater distances

Features and Benefits

- Visible from multiple angles
- Over 50,000 hours of illumination
- Fully sealed IP67 rated unit eliminates water intrusion
- Externally mounted and easy installation
- Impact and scratch resistant
- Draws less than 3 amps at 13.8 vdc

Available Upgrades

- **HIGHER UV RESISTANCE**
  Best in class, for the sunniest climates

- **RETROREFLECTIVE SIGN**
  Illuminated sign with retroreflective panel for safety even without power

CUSTOMIZABLE SIGN
Signs are custom made to fit each bus model to maximize the light output. Please contact us for signs for other bus models coming to market.

We outshine the competition, especially in low-light conditions
